

LDU FACTORISATION DOCUMENTATION

Meeting-1 (Initialization):

Date-28/10/2024

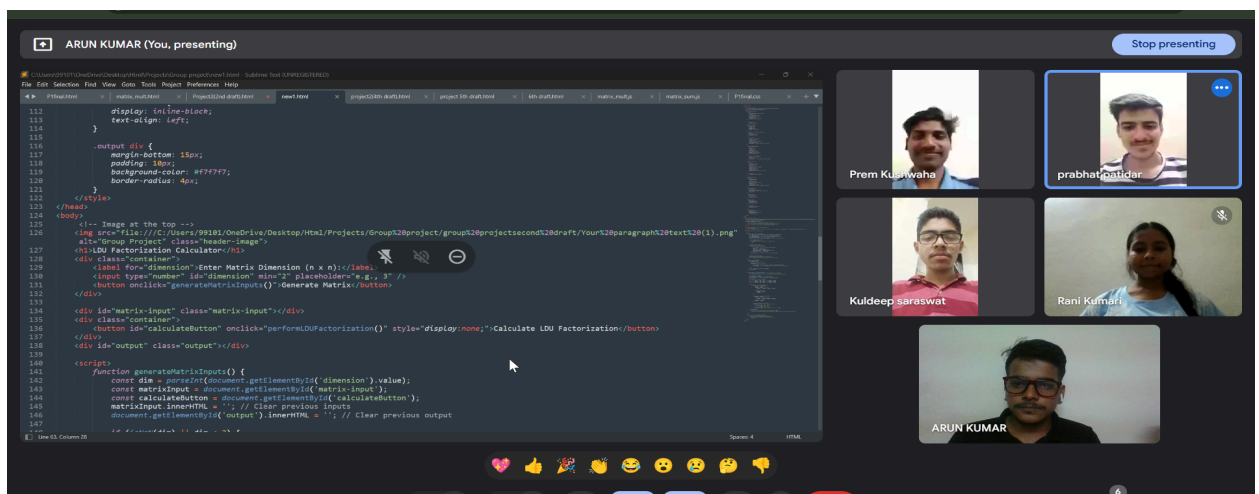

Inferences:-

- Had a introduction with everyone in the group to know about each other and their strengths and weaknesses about HTML,CSS and JS.
- Discussed about LDU factorization and how we can write it in the form of Code.
- No one has expertise in js and no one is comfortable with .js
- We thought of making initial steps in the next meeting as most of them are busy with festive celebrations, traveling and other stuff.
- **Attendance:-** Arun Kumar, Rani kumari, Prabhat Patidar, Kuldeep Saraswat, Prem shankar kushawaha.

Meeting-2 (Logic and Framework):

Date-01/11/2024

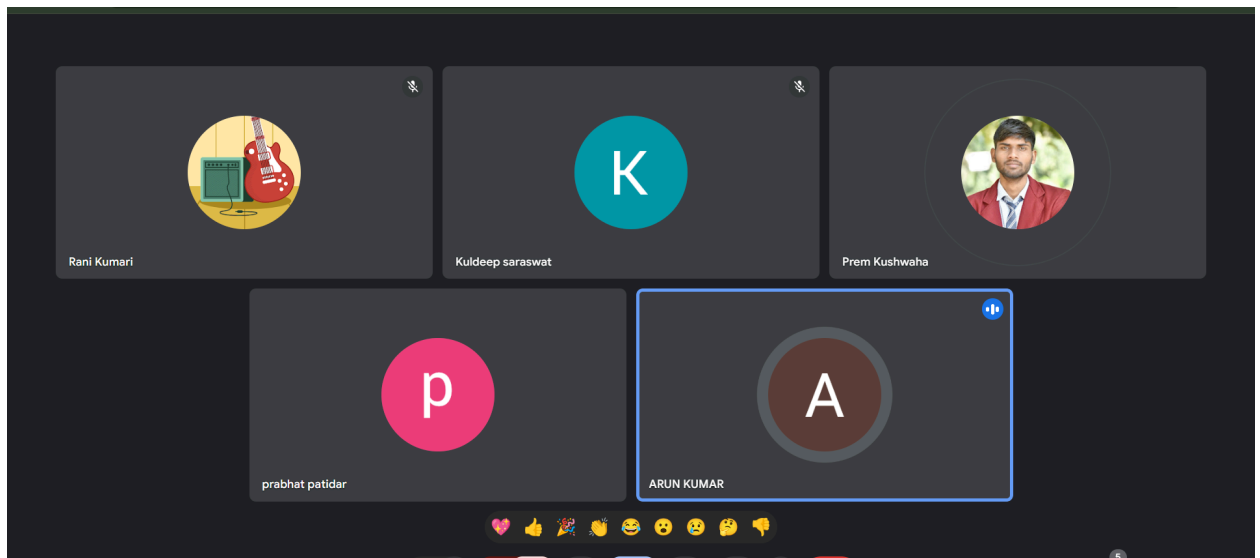

- We discussed the format of the website, specifically that home page designing aspects.
- We discussed multiple formats for designing our webpage.
- We tried a format and started developing on it.
- We prepared initial html code for that placed buttons images and all
- Discussed multiple problems while working on the code.
- **Attendance:-** All present

Meeting-3 (Prototyping):

Date-02/11/2024

- Although the code was made, it wasn't working because of a lack of knowledge about javascript.
- The Javascript part was really hard as the knowledge we have about javascript wasn't enough for it.
- We weren't able to work on the main component of LDU factorisation.
- None of us was able to take up that part.
- **Attendance:-** Arun Kumar, Rani kumari, Prabhat Patidar, Kuldeep Saraswat, Prem shankar kushawaha.

Meeting-4 (Error finding and solving):

Date-04/11/2024

- We noticed that our webpage is overcomplicated and above that some buttons weren't even working.
- Image placement on the webpages weren't even good, it was looking very immature.
- We took opinions on what to do with the project.
- We took up a new idea for a web page and scrapped the older one.
- We designed a new layout in ms paint just for the sake of the idea , so that everyone could understand the main theme of the webpage.
- **Attendance:-** Arun Kumar, Rani kumari, Prabhat Patidar, Kuldeep Saraswat, Prem shankar kushawaha.

Meeting-5 (More Changes):

Date-07/11/2024

- Second draft of our project was presented and we observed some changes that could make it better.
- We made the webpage simple,so that it doesn't over complicate the structure of it.
- Some changes in CSS were committed to make it look much better.
- We don't have any idea about what to do with the javascript part, instead of copying it from any AI model we decided to leave that part.
- **Attendance:-** Arun Kumar, Rani kumari, Prabhat Patidar, Kuldeep Saraswat, Prem shankar kushawaha.

Meeting-6(Finalize and Commit)

Date-09/11/24

- Last meeting of this project and we have done pretty well with html and css part but we were disappointed with the javascript part as it's a failure that we weren't able to complete the project as assigned but Sankho sir mailed that we don't have to worry about the js part as he will be teaching it again.
- We would have committed the code to github but due to server issues we weren't able to so we committed the code the next day.
